DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, drawn to a nucleic acid of Figure 1, the polypeptide of Figure 2, a host cell, a vector and a method of producing a protein.

Group II, claim(s) 1-14, drawn to a nucleic acid of Figure 3, the polypeptide of Figure 4, a host cell, a vector and a method of producing a protein.

Group III, claim(s) 15-18, drawn to an antibody that binds the polypeptide of Figure 2.

Group IV, claim(s) 15-18, drawn to an antibody that binds the polypeptide of Figure 4.

Group V, claim(s) 19-23, drawn to a method for screening for a bioactive agent that binds a cell cycle protein.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I-IV are drawn to separate, distinct inventions and are distinguished from each other because the special technical features which define them by chemical and physical characteristics i.e. structure/function, as well as biological functions are different and these special technical features are not shared by each invention, i.e. the inventions comprise amino acid sequences and nucleic acid sequences which have different sequences. Since these special technical features are not shared by each product and since the common features do not establish

an advance over the prior art, the inventions of Groups I-IV do not form a single inventive concept within the meaning of Rule 13.2

The invention of Groups I-IV are separate and distinct from the inventions of Groups V because the inventions of Group I-IV is not used or produced by the inventions of Group V.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
